BIG PRINT VALUES.

WHY OUR PRICES on the patterns, style and quality of print goods illustrated in this catalogue are lower than any other house, wholesale or retail.

WE TOOK ADVANTAGE of the cotton market. Our buyer in this department, with his long experience with the change in the condition of the cotton market, anticipated the usual stiff advance in cotton that generally takes place late in the winter, and made his contracts for bale cotton at the lowest point the market reached in 1902, purchased a sufficient quantity to take care of our entire wants in the print goods department, for every style and quality for the entire season; and, while we might take our profit on the raw material, **following a fixed policy of our house to give our customers the benefit of every penny of advantage we get in market, quantity or otherwise,** these goods are being made up for us by the best makers in this country, under the direction, and in many cases under the special designs furnished by us, on the basis of the low price of cotton, and to the actual cost to produce the goods, cost of the cotton, the weaving and the printing, we add our one small percentage of profit, and as a result we feel safe in making you this offer:

OUR CHALLENGE OFFER. Send us your order for anything in this department, any style, print or quality of cotton print goods. We will send the goods to you with the understanding that if they are not perfectly satisfactory, exactly as represented, and much better value than you could buy elsewhere in any quantity, if you are not convinced you are buying these goods from us for even less than your storekeeper at home can buy in case lots, you can return the goods to us at our expense and we will return your money.

IF YOU WANT A DRESS PATTERN or waist pattern, if you want goods for a wrapper or other garment or other use, be sure to make your selection from this catalogue. Don't wait to send for samples. We have made an entire change in the designs and qualities, and also in the prices that we submit this season. Every pattern is a gem and the price is much less than is asked for inferior goods by other houses. **All of our flannels are specially selected and of exceedingly perfect texture, pure, clean, white, and the embroidery is firmly done with a superior quality of silk.** They are thoroughly washable, are uniformly 33 inches wide, and are finished with a 2-inch folded edge. The goods are correctly illustrated, the descriptions are accurate and the goods guaranteed to be exactly as represented.

Our 33-Inch Wide Cream Wool Flannel, with a beautiful heavy hemstitch 1 inch wide, with silk embroidery. This is a very nice quality of flannel and the design is entirely new for this season. Width of flannel, 33 inches; width of embroidery, 1 inch.

No. 36T1758 Price, per yard 49c

All Wool Cream Baby Flannels, Embroidered.

Width, 33 inches; width of silk embroidery, 1¾ inches.

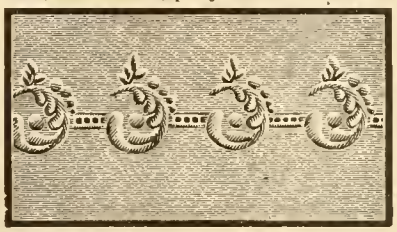
No. 36T1766 Price, per yard.....52c

The above illustration shows a handsome design in our all pure wool cream flannel. Especially adapted for children's long skirts and ladies' fine under garments. We have been very careful and were particular in selecting something entirely new in design. The illustration does not do justice to the heavy wide embroidery, which looks very narrow as seen in the picture, but we assure you the embroidery is very heavy and 2 inches wide. Width of flannel, 33 inches; width of embroidery, 2 inches.

No. 36T1770 Price, per yard.....59c

This is a remarkably pretty design of embroidery, worked upon a very nice, fine, all wool cream baby flannel. Too much cannot be said about the beauty of this embroidery, as it is a new design and something that any lady will be proud of. It is impossible for us with this small illustration to do justice to the heavy and perfect work. The embroidery is extra heavy and the scallops are very firmly embroidered. Width of flannel, 33 inches; width of embroidery, 2 inches.

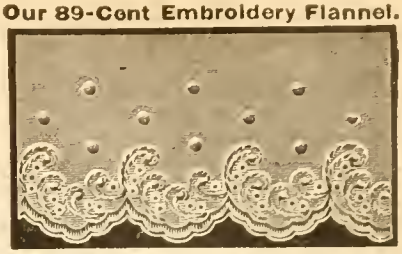
No. 36T1774 Price, per yard.....69c



Our Hemstitched Embroidered All Wool Cream Baby Flannel. This is one of the nicest styles that we show in embroidery insertion effect. The illustration will give you a faint idea of the beauty of this embroidered flannel, which is one of our prettiest numbers and the price is very low. We have contracted for 1,000 pieces of the above embroidery flannel, and at the popular price at which we are enabled to sell it, there is no doubt but that the demand will clear out our stock in a very short time. **Our price, which is the price of the flannel direct from the manufacturer**, the embroidery done by an embroiderer, who takes the contract for a tremendous quantity, and with our one small profit added it goes to you for 73 cents, which is a saving of at least 12 cents a yard, and you rarely buy it for less than $1.00, which would be a saving of 27 cents. Width of flannel, 33 inches; width of embroidery, 1¾ inches.

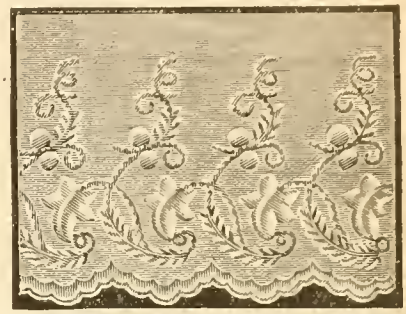
No. 36T1778 Price, per yard.....72c

Our 89-Cent Embroidery Flannel.



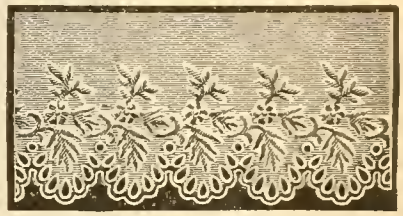
This flannel is equal to the goods we sold during previous seasons at $1.19 per yard. At 89 cents we have lowered the price, and it has been made possible by contracting with the manufacturers of the flannel and with the embroidery companies, and getting the very lowest prices for the largest quantities. A very fine quality of white all wool flannel. It is very firm and perfectly edged. Width of flannel, 33 inches; width of embroidery, 2⅞ inches.

No. 36T1782 Price, per yard.....89c



This 33-Inch All Wool Embroidered Cream Flannel is one of the prettiest designs it has been our pleasure to select for this new line of embroidery flannels for our new catalogue. The accompanying illustration gives you a faint idea of the heavy, wide embroidery as it will appear when you see the goods. The actual width of embroidery is 4 inches, and the quality of flannel is one of the very best you can buy anywhere. In fact, at retail the flannel alone, not embroidered, from a retail store would cost at least $1.00 per yard this width. Width of flannel, 33 inches; width of embroidery, 4 inches.

No. 36T1784 Price, per yard..... 98c



This pretty design of embroidery on our best 33-inch cream all wool flannel will prove one of the handsomest designs, and indeed will be a surprise for style and quality at this small price. This flannel, if it were bought in ordinary or fancy goods departments, would cost anywhere from $1.50 to $1.75 per yard. Nothing is to be seen anywhere like it in scalloped flannels, the scalloped edge of firm and compact profusion of perfect embroidery. The floral design, as above, is simply perfect. Width of embroidery, 2¼ inches; width of flannel, 33 inches.

No. 36T1786 Price, per yard..... $1.19

The above illustration is a correct picture of the widest and handsomest embroidered cream, all wool flannel we are showing this season. This handsome design is 5½ inches in width and has a massive strong embroidery. Like the above outline, the flannel upon which this is embroidered is one of the handsomest imported, equal to a flannel that costs twice the amount which we ask for it. This goods was bought in large lots and the embroidery is done under special contract. Width of flannel, 33 inches; width of embroidery, 5½ inches.

OUR BIG IMPROVED BLANKET DEPARTMENT.

IN ALL KINDS OF BLANKETS, from the very low priced to the very highest grade of heavy weight beautifully fleeced all wool blankets, in all the different colors, we are, as the largest dealers in blankets in America selling direct to the consumer, recognized headquarters in this line and in a position to furnish you such values as you could not get elsewhere at anything like the price.

OUR VERY LOW PRICES on these goods in the past have built up our blanket trade to an enormous size where we must place it in a department by itself. The sales on different numbers have grown to where we are able to take the entire output of a mill on special numbers and in this way reduce the cost to the actual cost of material and labor with but our one small percentage of profit added.

WE HAVE BEEN ABLE to get away from the customary cost and profit in making and handling of blankets by allowing one mill to run exclusively on one grade and weight, confining one loom to the one weight, style and color of blanket through the season, and so distributing our contracts that the cost of making a blanket is greatly reduced, the uniform high quality and finish is greatly improved, the selling expense to the manufacturer is entirely eliminated, hence the values we can give you in all kinds and all grades of blankets are positively unapproachable.

OUR BINDING GUARANTEE AND MONEY REFUND PROPOSITION.

AS A GUARANTEE that we can furnish you a better blanket at a lower price than you can possibly buy elsewhere, we are willing to accept your order for any blanket you may wish, with the understanding that after it is received and examined and compared with other blankets, if you are not satisfied you are saving money, that we are furnishing you a blanket at a lower price than you could get elsewhere, you can return the blanket to us and we will immediately return your money.

HOW WE CONTROL THE QUALITY.

DIFFERENT FROM THE REGULAR WHOLESALE DEALER in blankets, who buys the stock as offered him by different mills, we employ experts in this line. We specify in each case the quality of material that must go into our blankets, the weight and the finish. They are carefully inspected through all the processes of manufacture and every blanket is inspected when finished and must come up to our contract specifications, and as a result we not only give you the benefit of a much lower price than you can get elsewhere, but we give you a smoother, more evenly finished and altogether a better blanket than you will get from any ordinary stock. We have made it a point to see and examine the different lines of blankets offered this season by the different mills and there is nothing being shown that will approach the line of blankets to which we call your attention in the following numbers representing our new, big, improved, under the market values for this season.

WHILE NEARLY ALL OUR CUSTOMERS SEND CASH IN FULL with their orders for blankets, and other merchandise, and we always advise you to send cash in full, for you will save the extra charge of 25 cents to 50 cents which the express companies make for collecting and returning the money, nevertheless, to those who prefer to see and examine the blankets before paying for them, we will upon receipt of their order, accompanied by $1.00, send any blanket to any address C. O. D., subject to examination. You can examine it at your nearest railroad station, and if found perfectly satisfactory, then pay the railroad agent our price together with the express or freight charges, less the $1.00 sent with order. We know there never before were such blanket values sent out of any house and we feel like urging our customers not to overlook this department when making up their orders.

DO NOT OVERLOOK OUR BIG, NEW AND GREATLY IMPROVED LINE OF QUILTED AND TUFTED

BED COMFORTERS.

OUR POSITION IN THIS LINE is much stronger than ever before, and we are offering values in especially well made, quilted and tufted bed comforters which are unapproachable by any other house. This line of goods has grown so large with us, we have become such factors in the manufacture of quilted and tufted comforters, that a separate department has been devoted to the handling of these goods.

WE ARE THE FIRST HANDLERS IN AMERICA selling direct to the consumer. Our contracts for this season have been much larger than ever before, so large, in fact that we have been able to buy the materials for covers and cotton batting in immense quantities at inside prices. The machines have been running steadily on our work and the cost is gotten down to where at our special prices we quote you prices that barely cover the cost of material and labor with but our one small percentage of profit added. You can buy one cover from us for less money than dealers can buy the same grade of covers in any quantity.

SPECIAL NEW STYLES. In making up our line of comforters for this season, in medium and heavy weights we have gotten out special covering designs, fabrics that have been woven under contract for us especially for comforter coverings, and you will find them handsomer, newer and better than anything shown by any other maker. The process of quilting and tufting is accomplished by the latest automatic electric machines, which do the work evenly and perfectly, and turn out a smooth, handsome surface, beautifully stitched, nicely shaped, all full width, the filling evenly distributed, and the comforter such goods as you must see, examine and compare with those furnished by others to appreciate the value we are giving.

AT OUR EXTREMELY LOW PRICES you can buy beautifully made, well finished comforters from us for considerably less money than you could buy common material and make the same sized comforter up by hand, and at the same time the comforter we would furnish you will have a smoother, handsomer, better appearance than you could possibly make yourself with coverings and material you could purchase of your storekeeper at home.

OUR BINDING GUARANTEE. Every comforter is sent out under our binding guarantee as to quality, make, etc. If you order any comforter from us and it is not found perfectly satisfactory when received, you can return it to us at our expense and we will immediately return your money.

IN ORDERING BLANKETS (for which we are headquarters), with other merchandise, do not forget the long cold winter ahead and be sure to include one or more needed comforters. You will be surprised at the value you will get. Remember, your money will be returned to you at once if you are not perfectly satisfied with the comforter you receive.

ABOUT FREIGHT AND EXPRESS

It is seldom necessary to write us to ask what the freight or express will amount to. The weight of almost every item is given under the description.

BY REFERRING TO PAGES 7 TO 10

you can get the rate of freight and express to a point near you in your state, which will be almost, if not exactly, the same rate as to your nearest railroad station. From this you can calculate almost exactly what the freight or express will amount to on any shipment to your town, and you will find it will amount to next to nothing as compared to what you will save in price.

CARPET DEPARTMENT.

OUR NEW LINE OF CARPETS AND RUGS. A big assortment of new numbers. A line stronger, handsomer and better than before. We direct your attention to what we know to be the greatest values in Carpets, Oilcloths, Linoleums and Rugs that ever went out of this or any other house. Our this year's line has been greatly strengthened by the addition of our new line of Axminsters which we are quoting at the astonishingly low price of $1.29, our 61 and 74-cent 9 and 10-wire Tapestry brussels, our 96-cent velvet and our line of union and two and three-ply ingrain carpets at prices ranging from 29 to 83 cents per yard, constituting a line of carpet values that are made possible only by our taking the output of several large mills, by our doing away with our advertising expense, figuring but one small percentage of profit above the actual cost, giving our customers the benefit of every advantage we possess.

STYLE AND QUALITY. Our carpets are all of a high standard of quality, made by mills of established reputation. The styles are all the very latest for this season. The designs and the colors are the very latest, the same grade of goods as is carried by the best city retail stores where they sell at very much higher prices.

OUR BINDING GUARANTEE. We guarantee every carpet shown in this department to be exactly as represented, and when received if it is not found perfectly satisfactory, you can return it to us at our expense and we will immediately return your money. We endeavor to select carpets with colorings that can be depended upon and will not fade.

OUR LIBERAL C. O. D. TERMS. While nearly all of our customers send cash in full with their order, and we advise doing this, for it saves the extra express charge of from 25 to 50 cents which the express companies always make for collecting the money and returning it to us, nevertheless, to those who wish to see and examine the carpet before paying for it, we will, on receipt of $1.00, send any carpet to any address east of the Rocky Mountains by freight or express C. O. D., subject to examination. You can examine it at your nearest railroad station, and if found perfectly satisfactory, exactly as represented and such value as you could not get elsewhere, then pay the balance and freight or express charges, less the $1.00 sent with order.

CARPETS THAT ARE MADE UP, that is, carpets that are matched and sewed will not be sent C. O. D. For all made carpets, cash in full must accompany your order; but understand, even then if the carpet is not satisfactory when received for any reason whatever, you are at liberty to return it at our expense and we will immediately return your money.

BEAR IN MIND we advise against shipping C. O. D. It is more economical and will be found more satisfactory to you to send cash in full, with the understanding that we immediately return your money if you are not perfectly satisfied.

BIG REDUCTION IN THE PRICE FOR MATCHING, MAKING AND SEWING CARPET.

2 CENTS PER YARD FOR INGRAIN CARPET. At 2 cents per yard extra we will match, make and sew any 36-inch ingrain, rag or granite carpet to fit any room.

3 CENTS PER YARD FOR TAPESTRY, VELVET AND AXMINSTER CARPET. At 3 cents per yard for 27-inch carpet, including Tapestry, Velvet and Axminster carpets, we will match, make and sew any Tapestry, Velvet or Axminster carpet to fit any room.

6 CENTS PER YARD FOR BORDER CARPETS. At 6 cents per yard we will match, make and sew any Tapestry, Velvet or Axminster carpet where there is a border to match. For example, in making a rug from a Tapestry, Velvet or Axminster carpet in which there is a border on four sides, or in making a border carpet to fit any size room, we make a charge of 6 cents per yard for matching, making and sewing.

OUR SPECIAL PRICES of 2, 3 and 6 cents per yard for matching, making and sewing, according to the kind of carpet, is very much lower than the same work is being done by any other house, but the demand for made up carpets has grown to where we are now doing this work by automatic machinery on so large a scale that we have been able to reduce the cost of matching, making and sewing, and we feel like giving our customers the benefit of this saving.

WASTAGE IN MATCHING CARPETS. Where you order a carpet cut, matched, sewed and made, you must make a little allowance for the wastage in matching patterns exact. We require that you allow one yard wastage in matching for each 25 yards. For example, if you wish a carpet made for a room that measures 25 yards, you should pay for 26 yards, or if you wish carpet made for a room measuring 12 yards, you should pay for 12¼ yards. We will cut with just as little waste as possible, and if we can make it up wasting less than the amount you allow for, namely one yard to every twenty-five, we will give you the benefit of the saving and return the difference to you in cash.

There will be less waste and better matching where we make the carpet for you, even though you buy it and match and make it yourself, for the reason that we are cutting up hundreds of rolls. We can always make a saving of waste by cutting and matching from several rolls. Where we make the carpet for you we give you the benefit of this saving. Where there is any waste in matching we send you the waste pieces with the carpet, so that you can verify the wastage, and possibly make use of the small pieces for mats, coverings, etc.

HOW WE MAKE, MATCH AND SEW CARPETS.

We have a large organization for doing this work, which alone makes possible our special 2, 3 and 6-cent per yard price. Only expert carpet sewers are employed in this department. We have several large special electric carpet sewing machines, where the carpets come edge to edge, insuring a perfect match, and preventing their having ridges which injures the appearance and wears out at the seam. At our special prices of 2, 3 and 6 cents and with our facilities for making up and matching with the very minimum of wastage, you will find it cheaper to let us make the carpet for you than to buy it in the piece. In ordering carpet cut, matched and made for a square room it is only necessary to give the length and width of the room, but if the room is irregular in shape, such as a bay window, alcove, fireplace or like irregular lines, you should make a drawing on a piece of paper showing the dimensions.

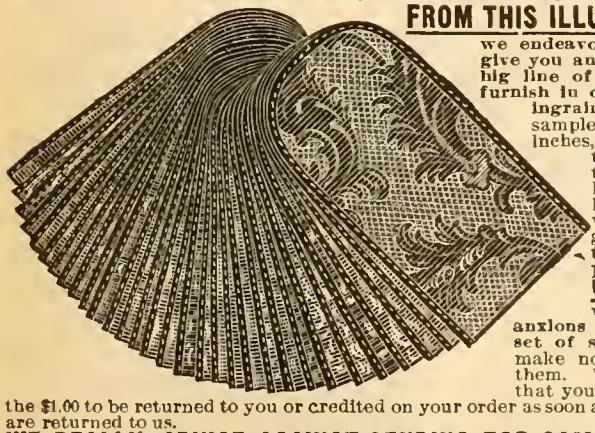
OUR TWO BIG SETS OF CARPET SAMPLES.

FOR THOSE WHO WISH TO SEE AND EXAMINE THE CARPET BEFORE ORDERING, WE HAVE GOTTEN OUT TWO COMPLETE SETS OF SAMPLES.

THE ONE SET CONSISTS OF a fair sized sample 9x18 inches, showing half the width of the carpet, thus giving a correct idea of the pattern and the colors, and enabling you to tell just what quality we furnish. This one set consists of a sample of each number in our entire line of two and three-ply, all wool ingrains, also cotton chain ingrains, half wool ingrains, Union ingrains and granite carpets.

THE OTHER SET OF SAMPLES consists of a sample 9x27 inches, large enough to give you a correct idea of the pattern and colorings, and show you the quality we furnish. This set consists of one sample of each of our entire line of 9 and 10-wire tapestry brussels carpets, our complete line of Sultan velvets and Axminster carpets. Either set of samples will be furnished free on the following easy conditions:

SEND US $1.00 state whether you wish the ingrain or brussels samples, we will send the samples to you by express. After you have received them and made your selections you can return the samples to us at our expense, and immediately upon receipt of the samples we will refund the $1.00 sent us, or apply it on your order, as you may direct.



FROM THIS ILLUSTRATION we endeavor to merely give you an idea of the big line of samples we furnish in our complete ingrain line. These samples are 9x18 inches, large enough to enable you to select intelligently, and know just what you are going to get as to quality and pattern.

UNDERSTAND, we are not anxious to sell you a set of samples. We make no charge for them. We only ask that you send us $1.00, the $1.00 to be returned to you or credited on your order as soon as the samples are returned to us.

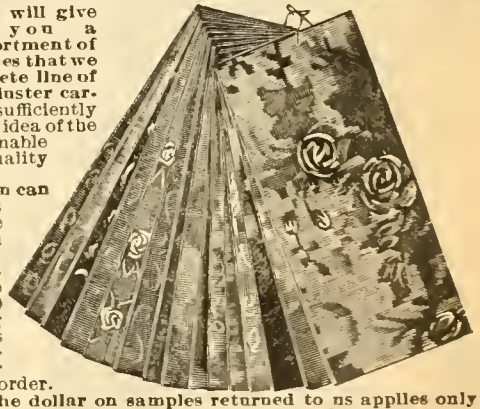
WE REALLY ADVISE AGAINST SENDING FOR SAMPLES. It is not necessary to send for either set of samples, since you take no risk whatever in ordering direct from our catalogue. The colored illustrations reproduced from 1½-yard length, will give you an excellent idea of the color and the pattern. Our descriptions will tell you just what we will furnish, and besides we accept your order, even though the carpet may be sewed and made to order, with the understanding that if it is not perfectly satisfactory when received, you can return it to us at our expense and we will immediately return your money.

MORE THAN 90 PER CENT of our carpet orders come direct from our catalogue, from customers who do not delay to send for samples, and our two sets of samples are only offered to accommodate such of our customers as feel they must see a sample of the carpet they are to have before they place their order.

OUR BIG LINE OF

BRUSSELS, VELVET AND AXMINSTER SAMPLES.

THIS ILLUSTRATION will give you a little idea of the big assortment of samples in sizes 9x27 inches that we furnish you in our complete line of Brussels, Velvet and Axminster carpets. The samples are sufficiently large for you to get a clear idea of the color and pattern, and enable you to tell exactly the quality of goods you will get.



From these samples you can select your carpet just as intelligently as if you were in our store buying from our stock.

UNDERSTAND, the samples are free. We only ask $1.00 with the understanding that as soon as the samples are returned at our expense we will refund your dollar or apply it on your order.

Our offer to refund the dollar on samples returned to us applies only to orders received from points east of the Rocky Mountains.

ABOUT OUR VERY LOW PRICES. It would take a great deal of space to go into detail and explain to you just how and why we are given so much more value than other houses, why it is possible for us to sell you a better carpet than you could possibly get elsewhere at anything like the price, and why a carpet you will buy from us, for example, at 25 or 50 cents a yard, you will find when compared side by side with any carpet advertised by any other house at a like price, even though they appear the same in the illustration and description, will be much lighter and in every way inferior to our carpet.

FOR EXAMPLE, on our special 25-cent granite carpet we take the output of a North Carolina mill, where conditions are peculiarly favorable to the making of the best cotton carpet that can be made for the money. We have held this carpet up in quality, extra weight, extra strength, an extra good granite carpet in every way, when other mills have counterfeited the pattern, the coloring and the style, with a much lighter and in every way inferior quality of carpet, and some dealers are offering this at 23 to 26 cents, as the equal of our famous 25-cent granite, but you only have to compare ours, the genuine with the imitation, to convince yourself that a yard of our 25-cent granite is worth two yards of any of these cheap imitations.

WHAT APPLIES TO THIS 25-CENT GRANITE CARPET applies to a great many numbers in Ingrain, Brussels, Velvet and Axminster carpets. We are headquarters in this line. We own the goods at the actual cost to produce, to which we add but our one small percentage of profit, and we leave it to you to be the judge. We cannot afford for the sake of a few cents per yard in price to take it out of the carpet, but we can afford to send you any carpet we quote with the understanding that if after received, and compared with any carpet offered by any other house at within 10 to 20 per cent of the price, our carpet is not found better in quality and more satisfactory, you can return it at our expense and we will return your money.

SHOWING CARPET AND BORDER MATCHED.

THIS CARPET is especially suitable for parlors, libraries and is equally suitable for a bedroom. **If you have a nice parlor that you want richly carpeted at a very modest cost, and you will send us your order, giving the size,** sending a diagram if the room is not square, and let us make this carpet up, matching it with our 22½-inch border, and allow us 6 cents per yard extra for making, matching and sewing, we will be pleased to send it to you with the understanding that after you have layed the carpet, if you are not more than pleased with it, if you do not feel that you have gotten in value, color and design effect what you could not get elsewhere at anything approaching the price, you can return the carpet to us at our expense and we will return your money.

THESE CARPETS make up especially rich when trimmed with our 22½-inch border. For this reason we use the two illustrations, the one small illustration to give you an idea of the effect we produce in our border to match. **By our perfect system of matching, making and sewing we produce an effect in a brussels carpet with a 22½-inch border equal to woven rugs that cost several times the price.**

This big improvement in our line, a reduction in prices, improvement in quality and the application of the richest and most expensive designs is made possible by reason of our enormous sales, and our ability to control the output of a number of the best mills, our ability to use, on our 10-wire tapestry Brussels carpet, the same colors and designs that have heretofore been used only on the most expensive Wilton velvet and Axminster carpets. We give you an advantage in color, in pattern and in quality not to be had from any other house.

THE GENERAL COLOR EFFECT is produced by a rich, deep tan ground effect, relieved by large free hand scrolls and a beautiful bouquet of roses, stems and foliage. The roses blend from a deep, rich shade of garnet to cerise and white. The foliage shades from a rich empire green to a very beautiful light tan. The whole color effect makes one of the handsomest and richest carpets that we have in our entire collection. You can scarcely imagine the advantage you have in carpeting a parlor, library or other room with one of our Brussels carpets as against any carpet you would be likely to get elsewhere, especially since we can give you a richer color and pattern effect than you can get in any Brussels carpet elsewhere.

SHOWING CARPET AND BORDER MATCHED.

WE, OF COURSE, want to give you all the effect we possibly can in Brussels carpet, and therefore urge that you let us make the carpet to fit your room, complete with 22½-inch border to match. You will be happily surprised at the effect we will get in such a carpet or rug. We will match, cut, make and sew the carpet or rug to fit your room, using our 22½-inch border, at 6 cents per yard extra, and we will send the carpet to you with the understanding that if it isn't perfectly satisfactory when received, you can return it to us, at our expense, and we will immediately return your money.

THE SMALL ILLUSTRATION here shown is intended to give you an idea of how perfectly we match the border to the carpet, and how necessary the border is to get the fullest effect of this new 74-cent 10-wire tapestry Brussels. The color illustration No. 37T1530, on page 1061, will give you some idea of the pattern and color effect worked out in this carpet.

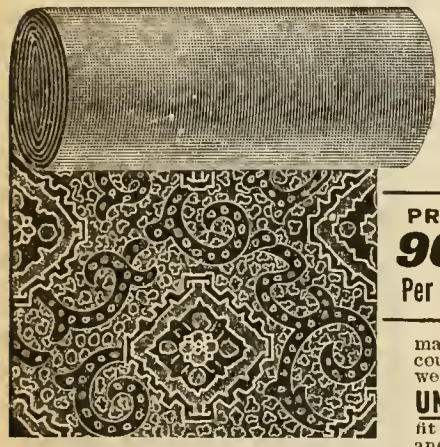
96 CENTS PER YARD BUYS OUR NEW, RICH, HEAVY WEIGHT, WILTON VELVET CARPET, IN THE VERY LATEST ORIENTAL DESIGN.



PRICE, 96c Per Yard.

REDUCED IN PRICE, improved in quality and enriched in color and design, brought right up to date; the same grade of goods as is going out of the most fashionable city stores at about double our price. The color effects of this Oriental Persian carpets are brought out by the rich Indian reds on a groundwork of bright olive shaded to a light nile green. The patterns are distinctly Persian. There is nothing more soft or mellow in colors than the general effect of this handsome carpet. It is a carpet that will contrast with almost any kind of a wall, furniture or drapings.

COLOR PLATE No. 37T1535 on page 1061, reproduced by the late photographic color process, from a 1½-yard length of this carpet, will give you some idea of the color and pattern effect. It is a new, rich, Oriental carpet such as you could not get elsewhere at anything approaching our price. A genuine Wilton velvet carpet at 96 cents per yard under the present carpet market conditions is, to say the least, astonishing value. If you will let us make you up a rug in this carpet, using our 22½-inch border to match, you will have to all purposes a rich Oriental rug such as you could not duplicate in a woven Oriental rug at many times the price we make.

UNDERSTAND, we will make this carpet up with our 22½-inch border to match either in a rug or in a carpet to fit any room (we only ask 6 cents extra for cutting, matching, making and sewing, including the border), and we will send it to you with the understanding that if it isn't perfectly satisfactory when received, and such value as you could not get elsewhere, you are at liberty to return it to us at our expense, and we will immediately return your money.

96 CENTS PER YARD BUYS THIS GENUINE WILTON VELVET CARPET IN ONE OF THE RICHEST NEW PRIZE DESIGNS SHOWN BY CARPET MAKERS THIS SEASON.

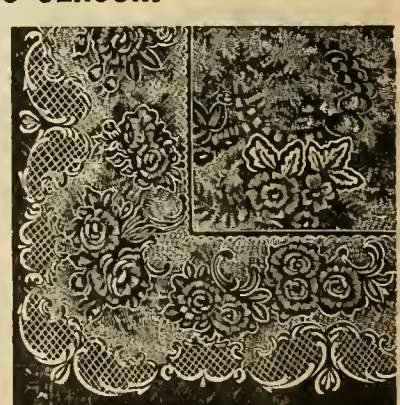
PRICE, 96c Per Yard.

THE PRICE OF 96 CENTS per yard for genuine Wilton velvet carpet can only be appreciated after you have looked at high grade Wilton velvets in any carpet store to ascertain the price at which these rugs are retailing. The price is made possible only by reason of our enormous output, our ability to take the entire output of a factory, thus reducing the cost to the actual cost of material and labor, and our willingness to give you all the advantage we have in the making, buying and selling. Understand, we send you any carpet with the understanding that if it isn't perfectly satisfactory when received, you can return it to us at our expense and we will immediately return your money.

THIS RICH, HEAVY WILTON VELVET CARPET which we offer at only 96 cents per yard, comes in a light tan ground work, relieved by scrolls, ferns and fret work, the whole being accentuated by a beautiful rich bouquet of dark rich red shading to light red and then to cerise. The ferns are a sage green shading to a delicate tan. The blending of colors on this beautiful tan ground is one of the handsomest effects we have ever shown in a carpet. For color and pattern see color plate No. 37T1540 on page 1061, as reproduced by the late photographic color process from a 1½-yard length of the carpet.

THERE IS NO CARPET MADE, regardless of price, that will give a richer effect than this, our 96-cent Wilton velvet carpet. It is a carpet we guarantee for wear, and while they are often bought in straight pieces and made up at home, are often ordered to be made up without the border, which we do at 3 cents per yard for cutting, matching, sewing and making, it seems a pity to use these rich new designs, these handsome colorings in a genuine Wilton velvet carpet without having the carpet made with border to match, producing an effect that only these rich carpets will produce.

WE WILL MAKE THIS CARPET into a rug of any size or to fit any room with our 22½ inch border to match, charging you 6 cents per yard extra for the cutting, matching, making and sewing.



SHOWING CARPET AND BORDER MATCHED.

WE WILL SEND the carpet to you with the understanding that if after received it is not found perfectly satisfactory, you can return it to us at our expense and we will cheerfully return your money. The small illustration shown gives you an idea of how perfectly the border matches and how necessary it is to bring out the fullness of the design effected in this new number.

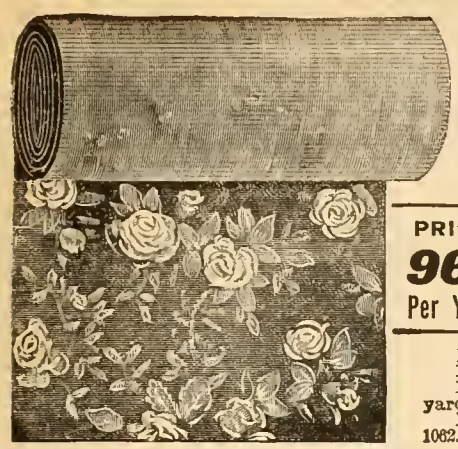
AN ENTIRELY NEW, RICHLY DECORATED, OLIVE BROWN BACKGROUND, GENUINE WILTON VELVET CARPET IN GOLDEN BRONZE BROWN, FOR ONLY 96 CENTS PER YARD.



PRICE, **96c** Per Yard.

IN OUR NEW, GENUINE WILTON VELVET CARPETS for this season we have endeavored to give you all the color and all the pattern effect that has been produced by the best designers and artists; all the effect that can be brought out in the most expensive carpet made will apply to our Wilton velvet carpet at the extremely low price of 96 cents per yard. **THIS BEAUTIFUL DESIGN** and color work was brought out by the most expert designer of one of the biggest carpet mills in the United States, and in competition with other designers and engravers for the same mill, this handsome pattern and color effect took the prize of $5,000. Nothing richer could be produced in a carpet than this handsome golden brown ground, with its beautiful rich red shading to light cerise and then to pink moss roses, with deep green shading to the lightest nile green foliage. The small scroll effects in a deep, rich cardinal relieves the golden bronze background, and the entire effect and design is the handsomest that has ever been shown in any carpet department. You cannot fail to appreciate this work of art.

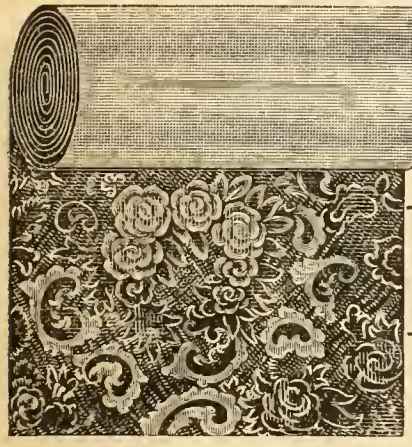
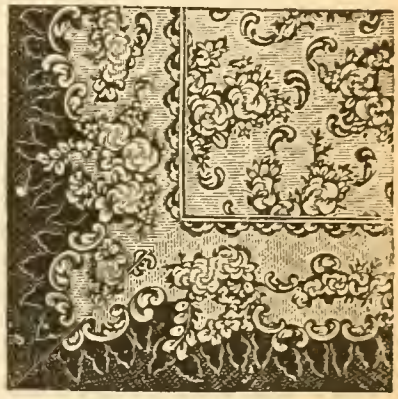
96 CENTS PER YARD FOR AN ENTIRELY NEW, RICH, HEAVY, GENUINE WILTON VELVET CARPET IN A MATCHLESS PRIZE DESIGN.



PRICE, **96c** Per Yard.

96 CENTS PER YARD buys this genuine Wilton velvet carpet, a duplicate in color and pattern effect of carpets that sell at two to three times the price, and such intrinsic value as was never before offered by any house. The enormous trade we have had the past season in Wilton velvet carpets has given us a big advantage in buying for this year. We have been able to control the output of a mill that makes these goods, and therefore are enabled to apply handsomer, richer and more expensive color and pattern designs to our Wilton velvet carpets than were ever before shown or can be had from any other house. Our price of 96 cents per yard merely covers the actual cost to produce the cost of material and labor, with but our one small percentage of profit added.

THE GENERAL COLOR EFFECT of this beautiful pattern is tan in medium shade. The scroll effect is in yellow and brown, and the beautiful bouquet effect is produced by a cluster of red roses relieved by foliage in light shades of green. The Color Plate No. 37T1550, on page 1062, is reproduced by the late photographic color process from 1½-yard length, will give you a very good idea of the color and pattern effect, but you must see, examine and compare it with other carpets to appreciate the value we are giving, the beauty of the design and color effect brought out in this new velvet carpet.



SHOWING CARPET AND BORDER MATCHED.

FOR A RICH, HANDSOME CARPET, for a parlor or other room, there is nothing that we can recommend more highly than a genuine Wilton carpet. It is a carpet with a deep nap, soft velvet surface and the wearing qualities of a heavy, strong Brussels carpet, and the rich, soft surface effect of a deep pile velvet carpet that sells at retail at several times the price asked for this carpet; in fact, one of these carpets made up into a rug or to fit a room, when made with our 22½-inch border to match, will give you a room covering, that we doubt you will find equaled in any home in your town.

IF YOU WILL SEND US THE SIZE of your room and let us make the carpet to fit your room, or a rug of any size, using our 22½-inch border, and allow us 6 cents per yard extra for the cutting, matching, sewing and making, you will no doubt have the handsomest floor covering of any home in your section, and if you are not perfectly satisfied with the carpet or rug when received, you can return it to us at our expense and we will immediately return your money.

THE 6 CENTS PER YARD we ask for sewing, matching and making barely covers the actual cost to us, and as we have facilities for doing it here with less waste, bringing each piece edge to edge to match perfectly and doing away with any unsightly seams, it is greatly to your advantage to let us make your carpet to your order. Understand, we cut, match, sew and make this carpet at 3 cents per yard, or if ordered with border to match we must charge the actual cost to us, 6 cents per yard.

THE SMALL CORNER ILLUSTRATION will give you some idea of the beautiful effect worked out when carpet is made up with 22½-inch border to match, and in ordering a velvet carpet for a room you cannot imagine the additional effect, the rich additional value you get in having your carpet made up with border complete, and we therefore urge that you let us make your carpet with border to match. Too much cannot be said in favor of this handsome velvet carpet, made up with border, and offered at our heretofore unheard of price of 96 cents per yard. If you have a room that you wish to make very much nicer than the ordinary, you will soon forget the few dollars extra it costs you to carpet with this Wilton velvet made up with border, as against any price you might pay for a tapestry Brussels or ingrain carpet, and you will always be very thankful that when you covered the room you did it with one of the handsomest carpets made.

YOU CAN SEE A FAIR SIZE SAMPLE of this carpet and all other styles in our Brussels, Velvet and Axminster carpets by sending $1.00 for our complete set of samples, the dollar to be returned to you when the samples are returned to us; but it is not necessary to wait for samples, for we fill your order with the understanding that if the carpet is not perfectly satisfactory when received, you can return it to us at our expense and we will immediately return your money.

OUR INDUCEMENTS FOR YOUR CARPET ORDER.

PRICE — STYLE — VARIETY — QUALITY

FOUR SPECIAL INDUCEMENTS FOR YOU TO SEND US YOUR CARPET ORDER.

PRICE Whether you wish to buy a low priced carpet, a granite, cotton or cotton wool filled, all wool ingrain, Brussels, velvet or Axminster carpet, we will furnish it to you at a lower price than you could possibly get elsewhere. We will furnish it at the actual cost to manufacture, the cost of material and labor, with but our one small percentage of profit added. We control the mills in which our carpets are made; we take the entire product of the looms in several factories, and one loom runs constantly on the one quality and pattern, thus reducing the first cost to manufacture to the very minimum. To this first cost we add but one small percentage of profit, and as a result you can buy carpet for one small room from us at a lower price than dealers can buy in large quantities.

STYLE Our styles, as shown in this catalogue, are the very latest for this season. They embrace the most of the prize patterns and colorings that are offered for this season, and we have reproduced even on our cheaper Brussels and velvet carpets some of the richest designs that will be found elsewhere only on the highest priced Axminster carpets for sale at greatly advanced prices. In short, you will find no such assortment, rich, new up to date colorings and patterns, as we offer in our big line for this season.

VARIETY We show a much larger line of carpetings than ever before. From this catalogue you can make your selection from a much larger variety than would be found in any of the carpet stores, whether you wish to buy a cheap, medium or high grade ingrain, Brussels, velvet or Axminster carpet, you will find such an assortment illustrated and described in our catalogue as you do not find in any regular carpet store.

QUALITY Our carpets are all of the highest grade, they are made of carefully selected materials, they come from the looms of first class makers, they are made and intended for service, and not a yard of light, flimsy, or second grade carpet is carried in our stock.

On the basis of lower price, better quality, newer and handsomer styles and a bigger variety than you can possibly get elsewhere, we earnestly solicit your carpet orders.

NOTE OUR ASTONISHING $1.29 VALUES IN OUR

FOUR NEW, HIGH GRADE, GENUINE AXMINSTER CARPETS.

FOUR HIGH GRADE AXMINSTER CARPETS sold generally from the best city carpet stores at prices ranging from $1.75 to $2.50, but to give our customers a chance to select from among the finest carpetings made and yet keep the price close to the $1.00 mark, we have arranged with a mill whose reputation for the manufacture of the highest grade Axminster carpets is second to none, to give us their entire output of Axminster goods, the highest grade they can make and on four of the handsomest new prize designs that have been produced for this season.

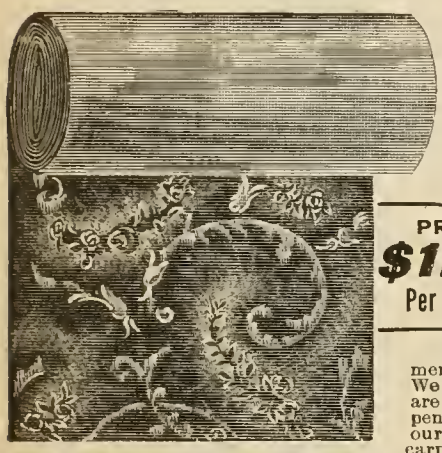
AT $1.29 there is next to no profit in this line, but we were determined to keep our selling price as close to the $1.00 mark as possible. The manufacturing cost has been reduced to the lowest possible point by utilizing the most modern type of carpet making machinery, and keeping four separate looms constantly busy on the four separate numbers, and we make the price to you the actual cost to us, the cost of material and labor, with but a very narrow margain of profit added. If you want these carpets made up we cut, match, sew and make them at the actual cost to us, which is 3 cents per yard, or when made with border, and these carpets are so rich that they never should be made without border to match, we make a charge of 6 cents per yard.

SO CONFIDENT are we that we are offering in these four Axminster numbers, carpet values that cannot be had from any other house at within 50 cents to $1.00 of our price, we will accept your order for any number, let it be cut straight from the piece or made up with border to fit any room, we will send the carpet to you with the understanding that if when received it is not found perfectly satisfactory, richer, handspmer and in every way better than any Axminster carpet that you can get from your dealer at home, and at least one-third more intrinsic value, return the carpet to us at our expense and we will return your money.

WHILE WE ARE THE LARGEST HANDLERS of carpets in America selling direct to the consumer, and our sales of ingrain and tapestry Brussels carpets are enormous, if you have a parlor floor to cover, if you have one room that you wish made especially attractive, if you want one floor covered as no other floor in your neighborhood is covered, we feel like urging you to forget for once the few dollars extra it will take to carpet your room with one of our high grade Axminster carpets as compared with any cheaper carpet, and send us the size of your room and let us make this carpet up for you with our 22½-inch border to match, and if when the carpet is received you are not very much pleased that you ordered our finest carpet instead of the cheaper grade, you can return it at our expense and we will immediately return your money.

These Four Numbers of Axminster Carpets at $1.29 are Absolutely Unapproachable in Value, Unmatchable in Color Effect, Such Numbers as Can be Had From no Other House.

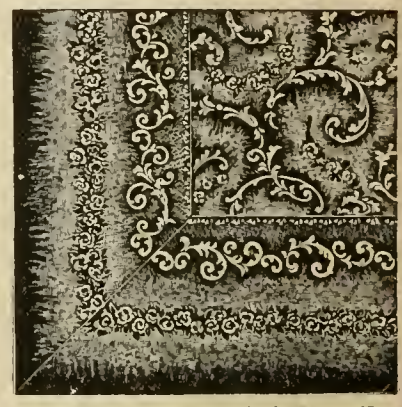
$1.29 FOR THIS NEW, RICH, GREEN BACKGROUND, HIGHEST GRADE AXMINSTER CARPET.



PRICE, **$1.29** Per Yard.

THIS RICH, NEW NUMBER has a long nap, extra deep pile, it has a soft, velvety surface, one of those carpets that really sink under your feet and are most luxurious. The general color effect is of a rich empire green shading to olive and then to nile green. The scrolls are of an ombre effect, produced by shades of tan, gold, ecru and old rose. The sprays of roses are in deep, rich cardinal reds shading to pink, relieved by foliage in bright green shades.

SEE COLOR PLATE No. 37T1555, on page 1062 as reproduced by the late photo color process from 1½-yard length of the carpet. The color plate will give you some idea of the color and pattern effect, although, unfortunately, by this process we are unable to bring out the rich shading of green as produced in this background, the color plate running some to black or a muddy color. You must really see this carpet to appreciate the value we are giving. While you can have a sample of this, including our complete line of Axminster, Velvets and Brussels, on receipt of $1.00, the $1.00 to be returned to you as soon as the samples are returned to us, we recommend that you send us your order without first waiting for samples. We know the carpet will please you and you take no risk, for if you are not perfectly satisfied you can return the carpet to us at our expense, and we will immediately return your money. We do not wish our Axminster carpets compared with any of the cheaper grades of carpets which are sold at $1.75 to $2.00 a yard and which are merely colored print. Our carpets are solid colors to the back, the colors will never wear off; they are, in fact, the highest grade Axminsters made.



SHOWING CARPET AND BORDER MATCHED.

REMEMBER, we advise you to have your carpet made with 22½-inch border to match. The small illustration will give you some idea of the beautiful effect worked out by making the carpet up with border, either in rugs or to fit your room exact, and our facilities for cutting, matching and sewing by our electric machines bring the carpet edge to odge, doing away with the seam, insures for you such a rug, such a carpet as you could not get elsewhere at anything approaching the price. Our price, when made with border is 6 cents per yard extra.

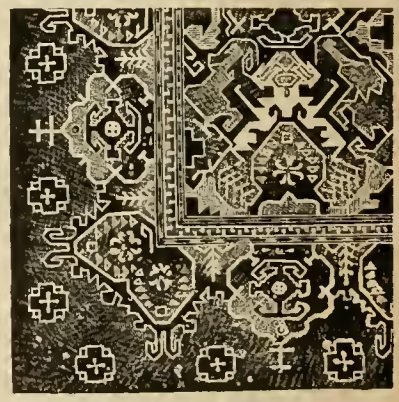
OUR BEAUTIFUL $1.29 RICH ORIENTAL GENUINE AXMINSTER CARPET.

PRICE, **$1.29** Per Yard.

$1.29 PER YARD buys this rich Oriental Genuine Axminster Carpet in the highest grade made, the longest nap, finest and most velvety surface, the through and through coloring process, the newest design, the best thing in a carpet made.

THIS NEW NUMBER is an exact reproduction of one of the most expensive, almost priceless Persian rugs, and will in color effect and style compare favorably with any of the Dagastan, Iraus, Tehraus or the other priceless Indian Persian rugs. We feel that we have gotten out something in this number that is absolutely unmatchable to anything ever produced in carpet. While it is especially recommended for rugs, and we advise that you allow us to make this carpet up with 22½-inch border to match in a rug to fit the room or rooms that you wish carpeted, nevertheless it is also used largely for carpeting a room complete, but then we advise by all means that you allow us to make it up with border to match. This is not only a desirable carpet for a rich covering for any parlor, drawing room or library, it is also especially desirable as a rug for a Turkish room or den. It is also suitable for offices, club rooms, hotel parlors and luxuriously furnished public buildings.



SHOWING CARPET AND BORDER MATCHED.

THE COLOR PLATE No. 37T1560, on page 1062 is reproduced from a 1½-yard length of the carpet by the new three-color photographic process, will give you some idea of the coloring and pattern effect, but the only way to appreciate what this carpet is, is to see it, and you take no risk in doing this. We accept your order for a carpet cut from the piece or made up in a rug for any room of any size entirely at our own risk of displeasing you. If it isn't satisfactory you can return it to us at our expense and we will immediately return your money.

THE ILLUSTRATION TO THE RIGHT will give you some idea of how perfectly we match the border. Our facilities for making this carpet up with border are unequaled and we do it for you at the actual cost. We cut, match, make and sew this carpet with border at 6 cents per yard; without border, 3 cents per yard.

UNDERSTAND, our price of $1.29 a yard is a price heretofore unknown. It is only the actual cost of material and labor, with but a very small percentage of profit added. It is absolutely unmatchable value.

THE GENERAL COLOR EFFECT is produced by deep, soft tone shades of red, rose, grays, taus; rich deep greens, shading to light nile green, cerise, all combining to make one of the handsomest color effects ever produced in carpets.

$1.29 PER YARD FOR THIS NEW, RICH, LONG, DEEP NAP VELVETY SURFACE, HIGHEST GRADE, RICH RED FLORAL BACKGROUND GENUINE AXMINSTER CARPET.

PRICE, **$1.29** Per Yard.

THE RICHEST, HANDSOMEST, most expensive, highest grade carpet we have ever handled, the same grade of carpet as is sold in the finest specialty carpet houses in large cities, and there at very fancy prices. It is as rich, in fact, as any carpet made, regardless of price, fine enough, rich enough for the drawing room of the millionaire, and yet reduced to our price of $1.29 brings it within the reach of people in the common walks of life.

THE COLOR EFFECT of the entire design is new, rich, up to date, one of the handsomest ever shown, an effect that even our color plate does not do justice, carpets you must see, examine and compare with carpets that sell generally at double the price to appreciate. The general color effect is produced by a very deep, rich shade of cardinal, relieved by deep red roses, shading to rose pink. The free hand scroll effect is produced by colors, such as deep empire green shading to bronze and nile green, intermingled with white and pink. The deep, rich shading of this carpet is something very rarely produced, and it is something that will harmonize with the richest drapings and furnishings.

JUST THINK, $20.00 to $35.00 will carpet the ordinary parlor with this, the richest carpet we handle, and to all purposes the equal of any carpet made. When you can cover the parlor with the handsomest carpet ever seen in your section, an effect we guarantee not produced in any other home in your section, we know if you could see and examine one of our genuine Axminster carpets, one of the four new numbers we show this season, you would have no other. If you could be in Chicago and examine the Axminster carpets that are shown by the most fashionable carpet dealers, and at prices ranging from $1.75 to $2.50, and then could see and examine this and our other three numbers at the same price, you would take our carpet, and since we bring the price within easy reach of all, within $25.00 to $30.00 for an ordinary sized parlor, we know you could not resist buying one of these handsome numbers, the highest grade we make.

SHOWING CARPET AND BORDER MATCHED.

NOTE FROM THE SMALL ILLUSTRATION how perfectly we match this carpet with our 22½-inch border. We especially urge that you allow us to make the carpet up to fit your room or in a rug of the desired size, using the 22½-inch border, and this work we do at the actual cost to us of 6 cents per yard for cutting, matching, making and sewing, and we send you the carpet with the understanding that if it is not perfectly satisfactory when received, you can return it to us at our expense, and we will return your money.

THE COLOR PLATE NO. 37T1565 on page 1062, reproduced by the late color photo process, from a 1½-yard length of this carpet, will give you some idea of the color and pattern, but you must see the carpet to appreciate what it is, for no color printing will bring out the rich shadings, the handsome blending colors.

YOU CAN SCARCELY IMAGINE the effort it has taken to be able to offer such a carpet at so low a price, only **$1.29.** As before explained, this is made possible, first, by reason of our enormous sales, which enable us to take the entire output of the mill on Axminster goods, a mill that makes the highest grade Axminster made, a carpet that sinks under the feet in the long nap, a carpet with a more velvety surface than is produced in any other carpet made, a carpet we can guarantee for wear.

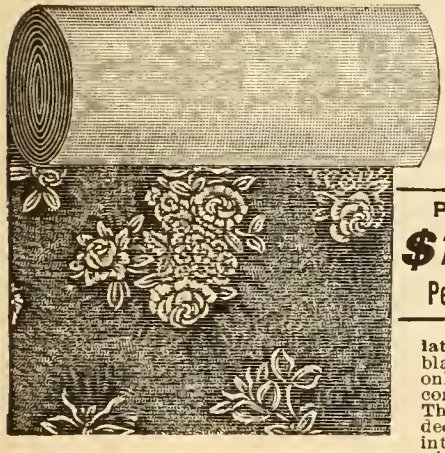
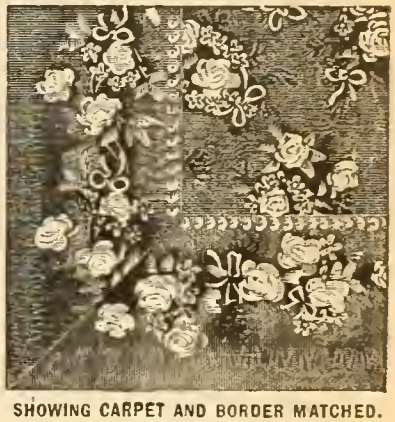
OUR BEAUTIFUL $1.29 PER YARD, GENUINE, RICH, VELVETY, AXMINSTER CARPET. A BRAND NEW PRIZE DESIGN.



PRICE, **$1.29** Per Yard.

$1.29 PER YARD buys this genuine Axminster carpet in the highest grade made, the longest nap, the softest, most velvety sorface, the most durable and wear resisting through and through color Axminster carpet made, and in a new prize design on a deep, rich tan background, an effect you will find in no other carpet at anything approaching the price. Remember, at our $1.29 price we guarantee such value as was never before offered by any house, and if you order a carpet, having it made up by us, and it is not entirely satisfactory, you are at liberty to return it to us at our expense, and we will immediately return your money. In offering such values in this, the finest carpet we handle, and which cannot be had elsewhere, you are getting all the advantage we have in an enormous output, in controlling the mills that make the goods, a price that barely covers the cost of material and labor, with but our very small percentage of profit added.

THE COLOR EFFECT can be judged somewhat from color plate No. 37T1570 on page 1062, as reproduced by the late photographic color process from a 1½-yard length, but the black shading and the soft color effect worked out in this carpet can only be fully appreciated by seeing and examining the carpet and comparing it with other carpets so inferior in pattern and color effects. The general color effect of this carpet is brought out by a very rich, deep shade of tan, relieved by bouquet of roses in light shades intermingled with foliage in deep green and corn flower blue, and tied with a lover's knot.



SHOWING CARPET AND BORDER MATCHED.

THIS CARPET, like all of our Axminster carpets, is suitable for a rug or carpet for the parlor, drawing room, library or any other room where one of the richest floor coverings can be produced when wanted. The different patterns are only offered to suit the taste of the purchaser.

WE CALL YOUR ATTENTION to the small corner illustration showing how perfectly we match the 22½-inch border for this carpet, making a bordered carpet to fit any room or for any size rug. It really seems a pity for one to order this carpet without having it made with border to match, as we have exceptional facilities for matching, sewing and making, and by our electric sewing machines bringing the carpets edge to edge to a perfect match and avoiding seams, and offering to do this for you at the exact cost to us, namely 6 cents per yard. We especially urge that when ordering an Axminster carpet that you have us make it up to fit your room, and we will send it to you with the understanding that if it isn't all and more than we claim for it, one of the handsomest carpets we have ever seen, and such value as you could not get elsewhere, you can return it to us at our expense and we will immediately return your money.

WE KNOW there is nothing goes out of this or any other city in a deep nap carpet, one of these carpets in which your feet sinks into the nap as you step on the surface, will begin to match this number. If you order an Axminster carpet from us made with border to fit your room, you will undoubtedly have such a floor covering as is not to be seen in any home in your section.

WHEN YOUR CARPET IS RECEIVED IF IT IS NOT PERFECTLY SATISFACTORY IN EVERY WAY YOU CAN RETURN IT TO US AT OUR EXPENSE AND WE WILL CHEERFULLY REFUND YOUR MONEY.

IF AFTER YOU GET YOUR CARPET, you are perfectly satisfied as to the quality, style and value, if it has been made to fit your room and fits perfectly, and yet you change your mind as to the color, or for any other reason you do not wish to keep the carpet, you can return it to us at our expense of freight or express charges both ways and simply say that you wish your money back, and your money will be sent to you by return mail.

WE WANT YOUR ORDER for carpet only with the understanding that we are to furnish you such value for your money as you could not possibly get elsewhere, only with the understanding that every yard of carpet is covered by our binding guarantee, and only with the distinct understanding that you have the privilege after the carpet is received of changing your mind, even though the carpet may be satisfactory, and return it to us, and we will immediately return your money.

OUR IMMENSE LINE OF 36-INCH WIDTH INGRAIN CARPETS

In all now, up to date numbers for this season, improved in quality, beautified in new and exclusive prize color and pattern designs we offer to you under our binding guarantee for quality, and with the understanding that they are absolutely unmatchable either in quality, style, color or pattern design to anything on the market at anything approaching the price.

WE ARE RECOGNIZED HEADQUARTERS for ingrain carpets. We are the largest dealers in carpets in America, selling direct to the consumer. We have big advantages over all other handlers of these goods, and we give you the benefit of every advantage we have in the very low price we make. It would mean a lot of uninteresting reading to you for us to go into all of the many details of arrangements by which we are given advantages over all other carpet handlers and which makes it possible for us to give you very much better values in this line than you can possibly get elsewhere, but, in short, we can say this: **We control the output of the mills that make our carpets, and in many cases we control the cost of the manufactured materials, the yarns, etc., that go into the manufacture.** We have in several cases caused the mills to be placed in localities where the cost of materials and the cost of labor was peculiarly advantageous to the manufacture of the highest grade of ingrain carpets at the very minimum of cost, and while many mills have attempted to turn out imitations of our numbers at a cost to the buyers that would enable them to meet or approach our prices, they have invariably done so at the expense of the quality of the goods, either by lighter weave, inferior yarn, cheaper coloring and often by using obsolete patterns.

OTHER COMPETITORS attempt to meet our prices by buying up patterns that have been discontinued. For example, it frequently happens that a big lot of carpeting is offered at a low price because the colors are not fast, or there is a defect that will not show up until after the carpet is worn for some time.

WE CANNOT AFFORD to handle these goods. Our goods are all strictly high grade of the highest standard, and you can only fully appreciate the values we are giving in our big line of ingrain carpets by first seeing, examining and comparing our carpets with those offered by other houses at anything approaching our price. While we expect from these illustrations and descriptions and from the color plates to which we refer you to give you an idea of the color and the pattern, to get your order without your first waiting to write for samples, to those who prefer to see a sample of the carpet before paying for it, we will on receipt of $1.00 send our complete line of samples of all ingrain carpets, the $1.00 to be returned to you as soon as the samples are returned to us.

FOR 2 CENTS PER YARD extra we will cut, match, make and sew any ingrain carpet to fit any room, and as we have excellent facilities for doing this work, we especially recommend that you let us make and sew your carpet. By our electrical sewing machines we are able to match the carpet perfectly, bring each piece edge to edge, doing away with the unsightly seams and making you an altogether better job with less waste in matching than you could possibly do if you were to sew the carpet yourself. **Understand, at our prices we guarantee the values unmatchable, better in quality and lower in price than you can possibly buy elsewhere.** The price to you is the actual cost to us, the cost of material and labor under the most favorable conditions possible, with but our one small percentage of profit added, and if you do not find this so when the carpet is received, you can return it to us at our expense, and we will immediately return your money.

OUR NEW 83 CENTS PER YARD 3-PLY ALL WOOL EXTRA HEAVY INGRAIN CARPET.

83 CENTS PER YARD buys this, the highest grade, three-ply, all wool, extra heavy, closely woven, 36-inch width, reversible, wear resisting Ingrain Carpet, an entirely new number for this season, one of the richest green shades shown. Color plate No. 37T1575 on page 1062, reproduced by the late color photographic process, will give you some idea of the color and pattern. This number is one of the handsomest shown this season. The color effect is produced by a pretty empire green ground, with a large scroll in a maple leaf green, brought out in colors of empire green shaded to black, tan and white. **No illustration or description, nothing we could say would so convince you of the big advantage you have in buying a carpet from us as by seeing, examining and comparing our carpets with that of others.** Understand, if you order a carpet from us and it isn't perfectly satisfactory, you can return it, and we will immediately return your money. We believe we have in our ingrain carpets for this season richer color effects, handsomer designs, new and more up to date and more pleasing patterns than ever before shown in ingrains. Bear in mind, this our 83 cent ingrain is the highest grade we make, one of the highest grade ingrains on the market, the equal of carpets that sell from the most fashionable city carpet stores at almost double our price.

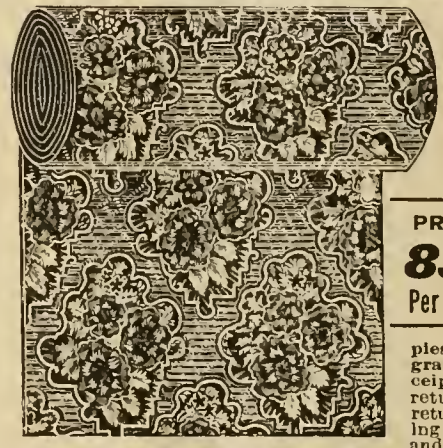
OUR 83 CENTS PER YARD HIGHEST GRADE ALL WOOL REVERSIBLE INGRAIN CARPET.



83 CENTS PER YARD buys this, the highest grade, three-ply, all wool, reversible ingrain carpet, in an entirely new pattern. A very rich design in bright, cheerful colors. A carpet that is positively unmatchable in value. Color plate No. 37T1580 on page 1062, as reproduced by the late photographic color process, from 1½-yard length of this carpet, will give you some idea of the color and pattern, but you must see and examine this carpet to appreciate the value we are giving. Samples of our complete line of ingrains will be furnished on receipt of $1.00, the dollar to be returned when the samples are returned to us; but we advise ordering direct from our illustrations and descriptions for you take no risk, as we immediately return your money if you are not perfectly satisfied. **Our 83-cent price for the highest grade ingrain carpet made is made possible** by reason of our taking the entire output of the mill. The mill is located where cheap water power, low wage scale and other conditions contribute to the possibility of producing this carpet so as to offer it at our 83-cent price. **This carpet comes in a light effect, the only one in our line.** The green effect is brought out in little diamond effects forming the ground work, with light olive green relieved by diamond squares of bright red. The large pattern effect is produced by an irregular scroll with center of roses alternating with maple leaves. **At 2 cents per yard extra we will cut, match, make and sew this carpet to fit any room.**

83 CENTS FOR THIS OUR LEADER IN THE HIGHEST GRADE THREE-PLY EXTRA HEAVY ALL WOOL WEAR RESISTING REVERSIBLE 36-INCH WIDTH NEW INGRAIN CARPET.

THE MOST POPULAR HEAVY WEIGHT THREE-PLY INGRAIN CARPET WE EVER HANDLED

A big improvement over the biggest seller. Last season we had a similar number in a dark, rich green background, with heavy, rich color floral design effects, that was by far the biggest seller we ever had in an ingrain carpet. It was a carpet that where we sold one in a neighborhood, we were almost sure to receive additional orders from friends and neighbors of the purchaser. To make it even more attractive, to make it more popular, a bigger seller and still greater value, we have materially improved the number for this season in quality, design and color effect. We have gotten out the strongest, best wearing, three-ply all wool carpet ever shown, the same general color effect with all the newness and design of the latest prize numbers of this season, and we do not hesitate to say that there is no dark, rich green floral effect that will begin to match this from any other mill. **Color plate No. 37T1585 on page 1062, as reproduced by the late photographic color process from a 1½-yard length of this carpet, will give you some idea of the color and design effect, and yet it only feebly portrays the elegance of this rich new number.** This carpet has a ground effect of a deep rich black relieved by ferns, sprays and bouquets of a bright green interlaced mingled with golden rod and daisies in brilliant crimson. To produce this particular number at 83 cents it first seemed next to impossible. The quality of material, the grade of yarn necessary, the weight and the care in weaving this carpet to give our customers what we desire, makes the production of it necessarily expensive, and yet by figuring on immense quantities, keeping the looms busy on this one number without any change, so far we have been able to hold the price down to 83 cents per yard. We will accept your order for this carpet with the understanding that if it isn't perfectly satisfactory when received, if you are not convinced that it is such value as you could not possibly get elsewhere at anything like the price, return it to us at our expense and we will immediately return your money. **At 2 cents per yard extra remember, we will cut, match, sew and make any ingrain carpet to fit any room.** In ordering any carpet you ought not forget to allow us one yard on every 25 for waste in matching. This piece of waste will be returned to you with the made carpet.

OUR NEW 61-CENT ALL WOOL INGRAIN CARPET.

OUR NEW 61-CENT HEAVY WEIGHT reversible two-ply, all wool ingrain carpet, in 36-inch width. An entirely new prize design for this season. Notwithstanding the advance in material and general advance in the price of carpets everywhere, our enormous contracts and control of the mills has enabled us to make a price of 61 cents, and bring out a richer, handsomer, heavier and better carpet than ever before, and we guarantee this to be the highest grade two-ply, all wool ingrain carpet made, and if any seller or maker can show you a better two-ply carpet than this, we will cheerfully refund your money.

PRICE, **61c** Per Yard.

UNDERSTAND, OUR 61-CENT PRICE BARELY COVERS THE COST OF MATERIAL AND LABOR,

with but our one small percentage of profit added. It is only by handling these carpets in immense quantities that any such a price can be made. The general color effect of this carpet is produced by a background of deep, rich wine color. The bright floral effects are brought out by shades of tan and yellow, interspersed with bright green and rich crimson shades.

COLOR PLATE No. 37T1590, on page 1063, as reproduced by the late color-photo process, from a 1¼-yard length of this carpet, will give you some idea of the color and pattern effect.

WE ARE HOLDING UP THE STANDARD of quality in our carpets, the weight, the colors and the service we know they will give in spite of the fact that with the advance in cost of material the tendency with other makers is to lighten the quality and cheapen the weave. You will appreciate this fact when you get a carpet from our house. At 2 cents per yard extra we will cut, match, sew and make your carpet to fit any room.

No. 37T1590 Width, 36 inches. Price, per yard..... **61c**

In the general color effect of this carpet we have endeavored to furnish one of the daintiest carpets we have ever shown in a two-ply ingrain. If you could be in Chicago and compare the carpets offered by any house, quality for quality, style for style, color, pattern, etc., with those offered by us; could see how much more value and how much more style we put into our carpets, at a very much lower price to the buyer, you could then appreciate why we are the largest handlers of carpets in this country. We want your order for a carpet only with the understanding that if after the carpet is received you are not satisfied that you have gotten such value as you could not get elsewhere, if you are not perfectly satisfied as to quality, color, pattern and style, you are at liberty to return the carpet to us at our expense and we will immediately return your money. It is put out under our guarantee as the highest grade, two-ply, all wool, ingrain carpet made. From the color plate No. 37T1610 on page 1063, reproduced by the late color photographic process from 1½-yard length of this carpet, you can form some idea of the color and pattern. It is a carpet you must see, examine and compare with other carpets to appreciate what it is in style, color, pattern and in quality. **We confidently believe that our two-ply, all wool, reversible ingrain carpet is to all purposes better than the average three-ply carpet sold by carpet dealers generally.** The pattern of this carpet is made up of a very handsome small figure design ground work brought out in shades of ecru, red and tan in a large scroll, and the most prominent pattern is in a bright bunch of leaves with a center of bright red shading to a light olive green and white, surrounded by pretty red oak leaves shading to white and tan, also a very handsome effect with rose center of the same coloring as in the leaf effect. **The predominating color of this carpet is rich red on a beautiful tan background,** and the carpet is suitable for parlors, dining rooms, bedrooms, in fact, for all purposes. It is a reversible, heavy weight ingrain carpet that will give excellent wear, and at our special price of 61 cents per yard will mean a big saving to you as against any price you can get from any other house.

HOW WE MAKE THE PRICE $1.83 TO $3.59: These rugs are made for us under contract by a North Carolina Granite Carpet Mill, a mill that runs exclusively on heavy cotton or granite carpets. This particular mill is located where materials are low, where they can command cheap labor, where everything combines to make possible the production of a heavy weight granite carpet at a low cost and we have for several seasons taken the entire output of this mill on granite carpets and recently we have induced them to put in looms for the weaving in one piece of our heavy reversible, deep border granite rugs in sizes from 6x9 feet to 9x12 feet, and by so doing we have gotten the cost of these finished rugs down to the same basis of cost as our granite carpets. We are the first people to place before the public a rug woven in one piece in this heavy, wear resisting fabric in all the new patterns and beautiful colorings at anything approaching the price. Don't buy a rug elsewhere until you have at least seen and examined one of ours. NOTE OUR LOW PRICES ON WINDOW SHADES.

IN ORDERING WINDOW SHADES an allowance of about 6 inches must be made from lengths quoted. Shades quoted size 3x6 feet are cut 6 feet long before they are mounted. The hemming and mounting take up about 6 inches. The 6-foot mounted shade will, therefore, measure but 5½ feet; the 7-foot shades will measure about 6½ feet. All of our shades are mounted and ready to hang; we do not sell them any other way.

THREE FEET WIDE is the regular stock size of window shades. Any shades narrower than three feet or wider than three feet will have to be made to order expressly, therefore costing more in proportion. We require cash in full for special made shades.

IMPORTANT NOTICE. THE LENGTHS QUOTED ON WINDOW SHADES ARE MANUFACTURERS' MEASUREMENTS.

OUR GUARANTEE FOR QUALITY. These goods come to us direct from two of the largest makers in this country. Every piece in this department is guaranteed to us by the manufacturer as to quality of material, workmanship and finish, and the same guarantee goes to you from us.

PRICES QUOTED include brackets and slats. Shade pulls, cords, etc., are extra and can be selected from our quotations in another column.

LETTERING. The price for lettering window shades with gold letters is 33 cents per running foot. Shade cloth 48 inches and wider is made of a heavy fabric and will not always exactly match colors in narrower and cheaper cloth.

Hair Switches

WE SELL MORE HAIR GOODS THAN ANY FIVE HOUSES IN THE COUNTRY.

WE IMPORT our hair from Europe in large quantities. It is bought for cash and we make up our switches, wigs, bangs, waves, etc., in the best manner possible, naming a price to you based on the actual cost to produce with but our one small percentage of profit added. **The enormous profit that has heretofore been charged by other concerns has made it impossible for many to own a nice switch,** but on our basis of one small profit above the actual cost to produce in quantities, a price which comes within the reach of all, we have established a trade in this line which excels in volume the business of any other five houses in America combined. **We guarantee every switch and every article of hair goods from this department.** If you buy a hair switch or any other article of hair goods and you do not find it exactly as represented and perfectly satisfactory in every way **you can return it to us within thirty days at our expense and we will cheerfully refund your money.** It takes three to five day's time to make a hair switch.

HOW TO ORDER. **Enclose the necessary amount with your order, with 5 cents extra added to pay postage. Send us a good sized sample of hair cut as close to the roots as possible** so we can give you a perfect match. We will then send you the switch you select by mail, postage prepaid. **We will guarantee it to match perfectly and to be in every way satisfactory or we will immediately refund your money.** All our switches are made in three braids with short stems with the exception of the 2-ounce 20-inch switch which we price at 50 cents. This switch has a long stem, the balance quoted all having short stems. We would recommend that you order one of our short stem switches, **which costs but a trifle more and is more satisfactory.**

WE DO NOT GUARANTEE HAIR SWITCHES AGAINST FADING.

You will know from your own experience that even the hair on the head will change color. Any good hair switch will fade in time, and the length of time a switch holds its color depends largely on the care it receives. If with this understanding you do not feel like keeping the switch, **you are at liberty to return it to us and we will refund your money,** provided the switch is returned to us within thirty days from date of purchase.

N. B.—No grease or oil should be used on a switch. If your switch should begin to turn in color, we would suggest that you wash same in cold tea, which is very beneficial and darkens the color. As all switches are made special to order, you must allow from five to eight days to fill your order, but we often ship them within three days. **Be sure and send a good sized sample and allow 5 cents extra for postage.**

CORSET DEPARTMENT.

SHAPES FOR ALL FIGURES. PRICES TO SUIT ALL PURSES. We present for this season the latest models and styles. We have given considerable attention to selecting the very best wearing styles as well as the most comfortable and stylish figures. The prices we quote are less than the average retail stores can buy them for. **We sell only such corsets as we can guarantee and recommend.** Our corsets have been bought and worn by thousands of satisfied customers, and they buy them again. If you have never bought a corset from us, **please let us try and fit you.** If you are not entirely satisfied after receiving same, both as to price and quality, you may return same and we will cheerfully refund the price you have paid for it, in addition to the postage or express.

BE SURE AND GIVE YOUR WAIST MEASURE and observe the following rules in taking your measure: If you measure with corset on, deduct 2 to 2½ inches from waist sizes as shown on tape; this allows for spread of lacing in back. For example, if waist measure is 23 inches over corset, **order size 21.** If you take actual body measure, without corset or under clothing, you should deduct 3 to 4 inches, depending on how tight you lace. For example, if your waist measure is 25 inches without corset or under clothing, **your size will be 21 or 22. Again we remind you to give your waist measure or size of corset,** as this is frequently forgotten by customers when ordering a corset.

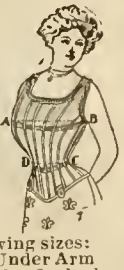
How to Send Correct Measure When Ordering Sahlin Perfect Form and Corset Combined.



MEASURES: The measure from "B" to "C" is the most important measure and should be taken with the greatest care. To secure a perfect and comfortable fit take measure as for a dress. The necessary allowance of 1½-inch for arm hole will be allowed by us. For example, if you measure 8½ inches give us this measure and we will send you a Form which measures 7 inches to waist line. To prevent mistakes, **please give actual measurement from "B" to "C,"** and state in order actual measure. We will then allow 1½-inch as above stated. **The Sahlin Perfect Form and Corset Combined** is made in the following sizes:

Bust	Waist	Under Arm
30 inches	18, 20, 22 inches	7, 8, 9 inches
32 inches	20, 22, 24 inches	7, 8, 9 inches
34 inches	20, 22, 24, 26 inches	7½, 8½, 9½ inches
36 inches	22, 24, 26, 28 inches	7, 8, 9 inches
38 inches	24, 26, 28, 30 inches	7, 8, 9 inches
40 inches	30, 32 inches	6½, 7½, 8½ inches

These under arm measures as shown in this table are the actual measure before the allowance for arm hole is deducted.

In measuring for size of waist, "D" to "C" remove corset, draw measure close as desired and give this measure. The bust measure from "A" to "B" is a matter of taste and is left to the judgment of the wearer, therefore, give actual measure from "A" to "B" and also state bust measure desired.

LACE DEPARTMENT.

We do not send samples of Laces.

We have made extraordinary efforts in our LACE DEPARTMENT to have every desirable style of lace represented in our catalogue. Our buyers having made special importations in immense quantities, enables us to name prices far below what the retail merchant buys them for.

SEND CASH IN FULL, ADDING POSTAGE, WHEN YOU DESIRE LACES SENT BY MAIL. If you send too much money, we refund balance. **We do not send samples of laces.** Our illustrations and descriptions are accurate. If not just as represented, and worth a great deal more than we quote, you may return your purchase and we will cheerfully refund money.

On account of the extremely low prices we quote we do not sell less than a full dozen yards, unless we so state in description. By comparison you will find you pay no more for the full dozen yards than you would buy a few yards for elsewhere. EMBROIDERIES.

WE DO NOT SEND SAMPLES OF EMBROIDERIES.

New and beautiful designs in Swiss and Nainsook and Cambric edgings with insertions to match. Also a complete line of embroidery allovers. While the illustrations give a very correct idea of the design, they will hardly give you the correct idea of the extremely good values that we offer you at the prices listed. We quote the entire width of embroidery, the design of which will be in proportion to the entire width. **We do not send samples of embroideries, as you can judge from the patterns what the goods are. We cheerfully exchange or refund money whenever you are not satisfied.**

If you order embroideries sent by mail, allow about 1 cent per yard extra for postage; if you send too much we will refund balance.

REFINED, ELEGANT AND BECOMING TRIMMED HATS

for the Fall and Winter Season, the very latest up to date Styles, at Moderate, Economical Prices.

THE AWARD OF POPULARITY has certainly been extended to our Trimmed Hat Department for the past few seasons, and last season our sales were doubled over the season previous. With the handsome new styles shown on this and the following pages, and at our wonderfully low prices for such artistic trimmed hats, we expect to again double our trimmed hat sales for the coming season.

WE MAKE IT POSSIBLE for ladies' who are unable to visit the city to get the benefit of the finest city styles by ordering stylish millinery from us. We give them the advantage of the exclusive original designs in trimmed hats, copied from the most expensive Paris models, such as you cannot find in small millinery stores in towns and small cities, but such styles as can be had only in the most fashionable city milliners, and there, at prices more than double what we ask.

OUR TRIMMED HATS can be depended upon as being the acme of style. Every hat has been selected by our expert after careful inspection of all styles shown by the various designers, and you may feel assured that if you order trimmed hats from us, you will not only be saving money, but will be getting the proper style; a hat entirely different from the hats that will be worn in your town, those bought from the ordinary millinery stores, a hat showing at once its distinctiveness in style.

WE WANT YOU TO ORDER YOUR FALL HAT FROM US. We are confident of pleasing you. We know that our trimmed hats are unapproached this season for style and for value, and we are safe in accepting your order with the distinct understanding and agreement that if, when received, you do not find the hat perfectly satisfactory and very becoming to you, you are at perfect liberty to return it to us at our expense and we will cheerfully refund your money.

OUR MILLINERY is sold on the same margin of profit that we sell other merchandise. We do not think of asking anywhere near the percentage of profit on trimmed hats, on our millinery, that is customary with all dealers in millinery to ask. Nearly everyone knows that the ordinary trimmed hat which sells at $5.00 to $10.00 in millinery stores has really not $3.00 worth of material in it. The balance represents style. You pay for the name of the milliner, and you pay a profit in addition that is out of all proportion to the actual cost of the goods.

OUR PRICES represent simply the bare cost of the material and labor of trimming the hats, and our one small percentage of profit added.

HOW TO ORDER. The weight of a trimmed hat, boxed ready for shipment, is about two pounds. Trimmed hats can be sent by mail if sufficient extra money is enclosed for postage. The postage is about 25 to 40 cents, but we strongly recommend and advise you to have trimmed hats shipped by express. The express charges will not be more than if the hat was sent by mail, and it is not nearly as liable to get damaged in transit. **Remember, if you order your hats sent by mail, be sure and enclose extra money for postage.**

LADIES', MISSES' AND CHILDREN'S WEARING APPAREL.

IN THIS our Department of Wearing Apparel for Ladies', Misses' and Children, we have brought together in one very complete stock the most select patterns and styles, the choicest garments, chosen with care from the most reputable manufacturers and priced at figures that defy any kind of competition.

IN SELECTING OUR STOCK FOR THIS YEAR we have very carefully avoided goods which will not give perfect satisfaction. We have avoided certain manufacturers whose specialty is the low grades of manufactured garments. We believe we are serving our customers' interest better by supplying them with a grade of goods which will please them not only when received, but after long wear. By most advantageous purchases from the most reputable manufacturers we are in a better position to furnish a superior quality at even a lower price than the products of cheap manufacturers are sold by other concerns.

THE GOODS IN THIS CATALOGUE are subject to slight changes in accordance with prevailing styles. We make mention of this fact for the reason that from month to month there may be slight changes in length of jackets, shape of collar or yoke on waists and the style of back or binding on skirts. In all cases we send to our customers the latest prevailing styles.

HOW WE MAKE OUR PRICES SO LOW.

WITH A UNIVERSAL TRADE covering the entire country, we are given a purchasing power equaling thousands of retail stores, and are thus able to take entire outputs of certain manufacturers. The manufacturer, in delivering all he makes to one reliable concern, having no expenses of advertising or traveling men, and selling to us on an absolutely spot cash basis, is only too glad to supply us at a very narrow margin above the actual cost to manufacture, and in this manner the goods are procured by us at from 20 to 25 per cent less than the retailer himself can buy at, and selling to our customers on our one narrow margin of profit above the cost to make, it is no wonder that our prices astonish the storekeeper and are a source of great saving to the consumer.
